Timetabling and Prioritising

If the policy has been screened in for equality impact assessment, please answer the following questions to determine its priority for timetabling the equality impact assessment.

On a scale of 1-3 with 1 being the lowest priority and 3 being the highest, assess the policy in terms of its priority for equality impact assessment.

Priority criterion	Rating (1-3)
Effect on equality of opportunity and good relations	
Social need	
Effect on people's daily lives	

The total rating score should be used to prioritise the policy in rank order with other policies screened in for equality impact assessment. This list of priorities will assist the council in timetabling its EQIAs.

Is the policy affected by timetables established by other relevant public authorities? If yes, please give details.

Monitoring

Effective monitoring will help the authority identify any future adverse impact arising from the policy. It is recommended that where a policy has been amended or an alternative policy introduced to mitigate adverse impact, monitoring be undertaken on a broader basis to identify any impact (positive or adverse).

Further information on monitoring is available in the Equality Commission's guidance on monitoring (www.equalityni.org).

Identify how the impact of the policy is to be monitored

Yes	X	No		If the response is NO GO TO Section 2E .
-----	---	----	--	--

2B. Please explain how the Policy, Strategy, Plan or Public Service is likely to impact on people in rural areas.

In developing the Policy, the Working Group considered a map of existing Changing Places Toilets and the locations of Council-owned public toilets, in an effort to identify gaps. Appendix 2 (Areas of Priority), highlights areas/facilities which are more than 3 miles from the nearest CPT.

When comparing sites for a Changing Places Facility, and to make most efficient and effective use of available funding, Officers will consider a range of variables in the decision making process. These will include, proximity to existing CPT, provision of standard WC facilities, provision of catering, ticketed activities, average time spent on site, the capacity of an arts or floor space of a leisure venue if applicable, average weekly opening hours of the facility, the state of readiness and the estimated cost of the works.

Some of these measures will be impacted by the rurality of a facility.

2C. If the Policy, Strategy, Plan or Public Service is likely to impact on people in rural areas differently from people in urban areas, please explain how it is likely to impact on people in rural areas differently.

The range of variables to be considered for a new CPT, if funding becomes available, may favor facilities in urban areas, as they are more likely to be larger facilities, with longer opening hours and providing catering.

The considerations will be applied equally to all facilities regardless of location.

A Mobile Changing Places Toilet will be available for 12 large-scale Council-led events annually. In the case of a large event in a rural area, this facility could be used to mitigate impact.
