 13. Broxap Derby standard litter bin with ABC Council logo
 14. Thermoplastic ground graphic: sunflower hopscotch
 15. Timber pergola to entrance path with coloured perspex roof features

Play Area:
The play area measures 444m² including new picnic and entrance pathway area.

Safety Surfacing:
Garden Escapes resin bound rubber mulch safety surfacing, natural colour mix, is to be installed to all play equipment safety zones as shown.
Surfacing thickness will vary to meet the free fall heights requirements of each piece of play equipment, as per current EN1176 & 1177 safety standards.
The colour scheme(s) and/or theme(s) shown on the drawings are for illustration purposes only and can be amended to reflect any desirable colour scheme or theme as required.

Remaining Surfacing:
Porous open textured bitmac will be laid to new pathway and all areas within the playground perimeter not finished with safety surfacing.
Excavated spoil from the play area will be used to fill in the ditch to create entrance way and to form mounds, around the perimeter for visual interest; these will be rolled and seeded.
All remaining areas will remain in their current condition, with any disturbed areas being reinstated on completion.

Fencing:
2m high weldmesh fencing, 656 specification, is to be installed to the perimeter of the site as shown. This fencing will be galvanized and powdercoated green or black.
A single pedestrian self-closing easycage gate will be installed to the play area entrance: this will be galvanized and powdercoated yellow. This will be positioned inside a 2m high weldmesh gate which will be galvanized and powdercoated to match the fencing.
