

Natural Stone Paving

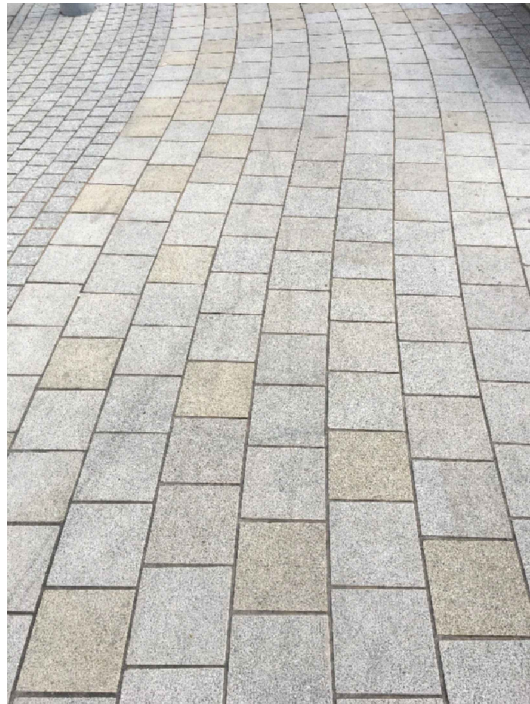

Image of high quality natural stone paving - Granite

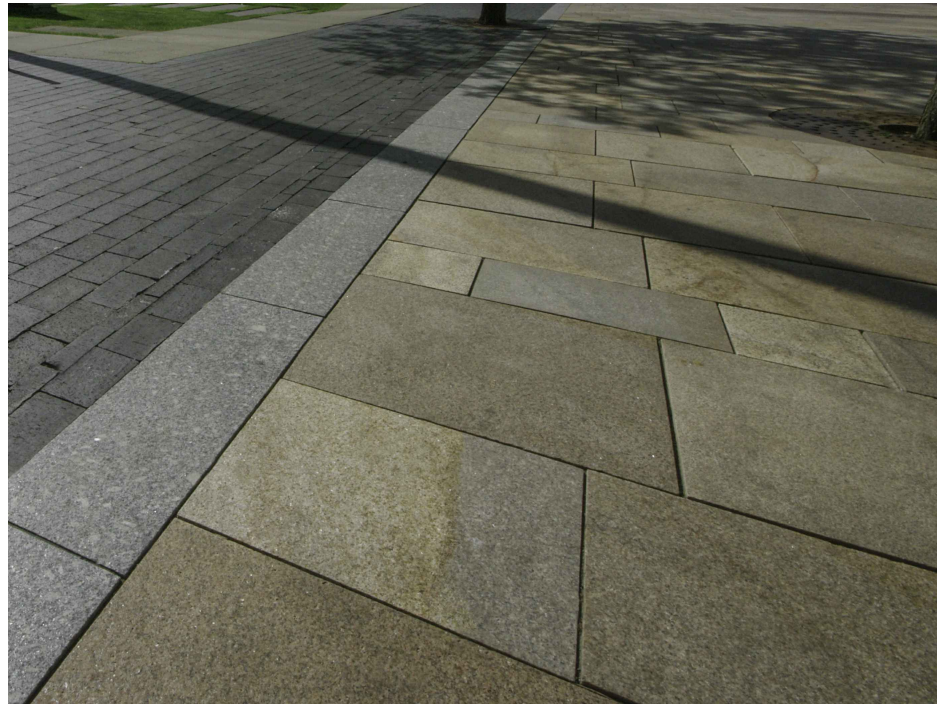

Image of high quality natural stone paving to footpath with contrasting coloured trim and vehicle access

Natural Stone Paving Inserts

Illustrative imagery of natural stone paving etched with text and / or graphics with historical context.

Illustrative imagery of natural stone with metal insert plate as historical reference/ identifier

Feature Seating

Illustrative imagery of reconstituted stone feature seating which contrasts with surrounding paving for ease of visual reference.

Seating

Illustrative images of contemporary bench and seating. Potential to integrate LED lighting to enliven streetscape during evening / night events.

Raised Planters

Raised planter with integrated 'Perch' seating

SMART/ Sustainable Elements

Illustrative image of SMART Bench - offering phone charging, wifi hotspot, branding surfaces. Powered by solar power

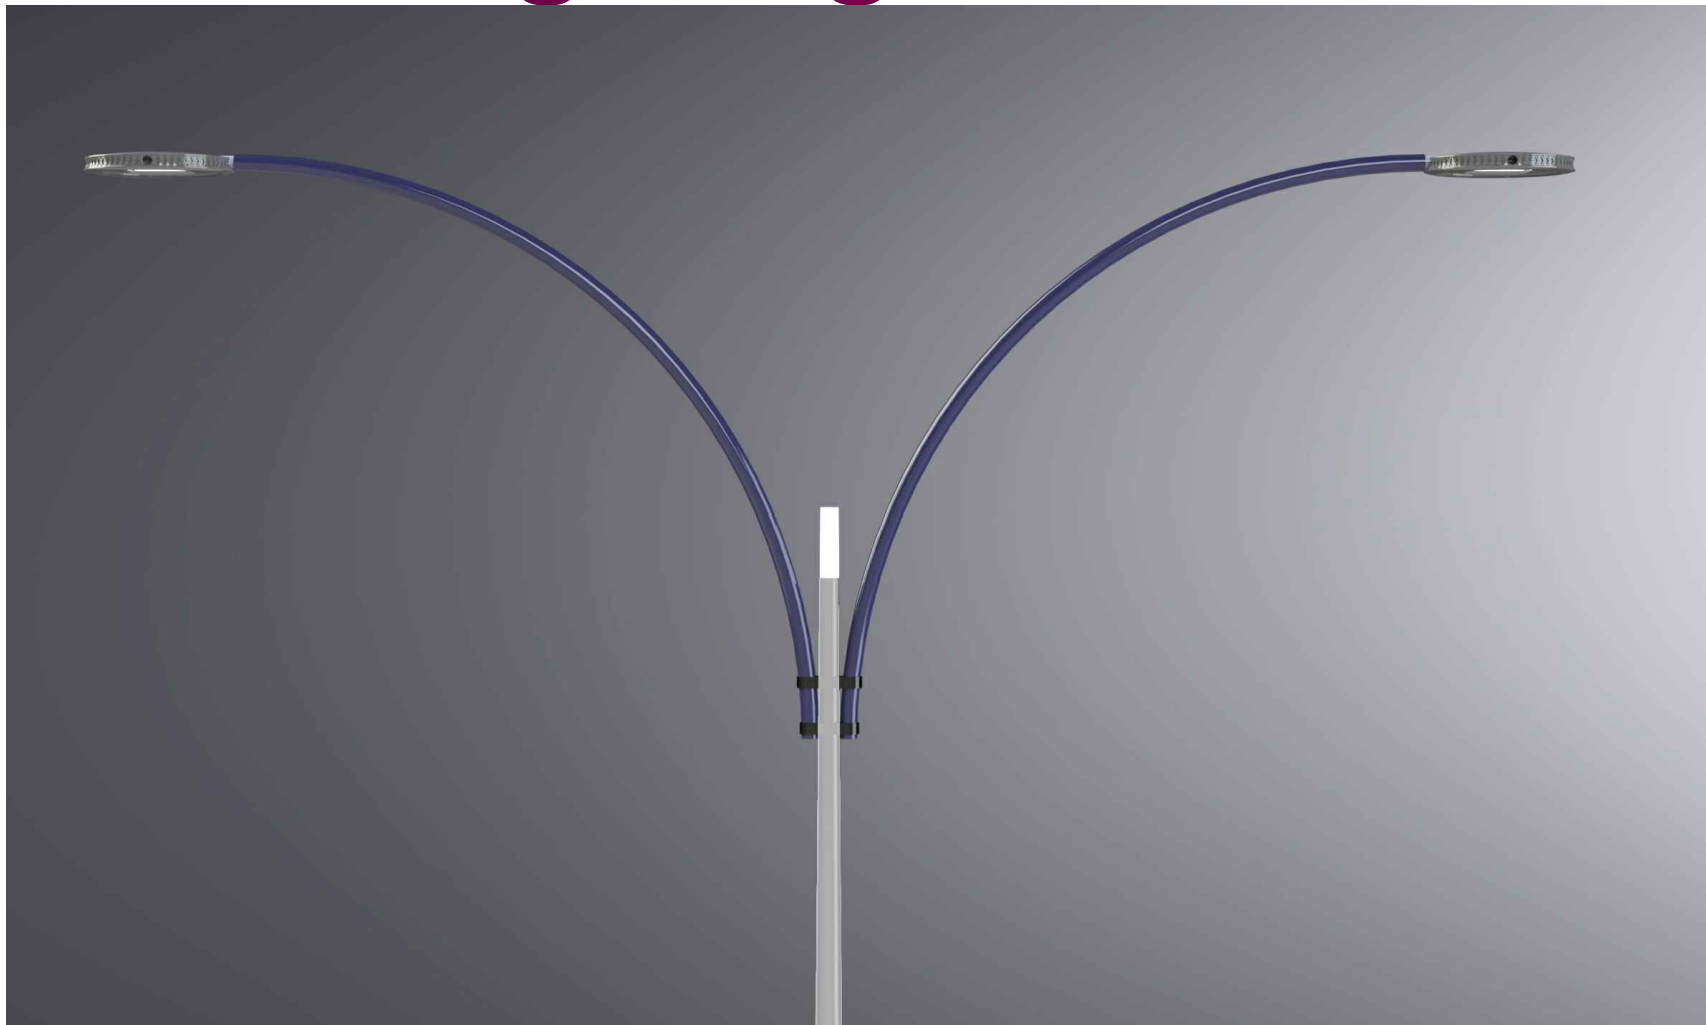

Illustrative images of external water re-fill station

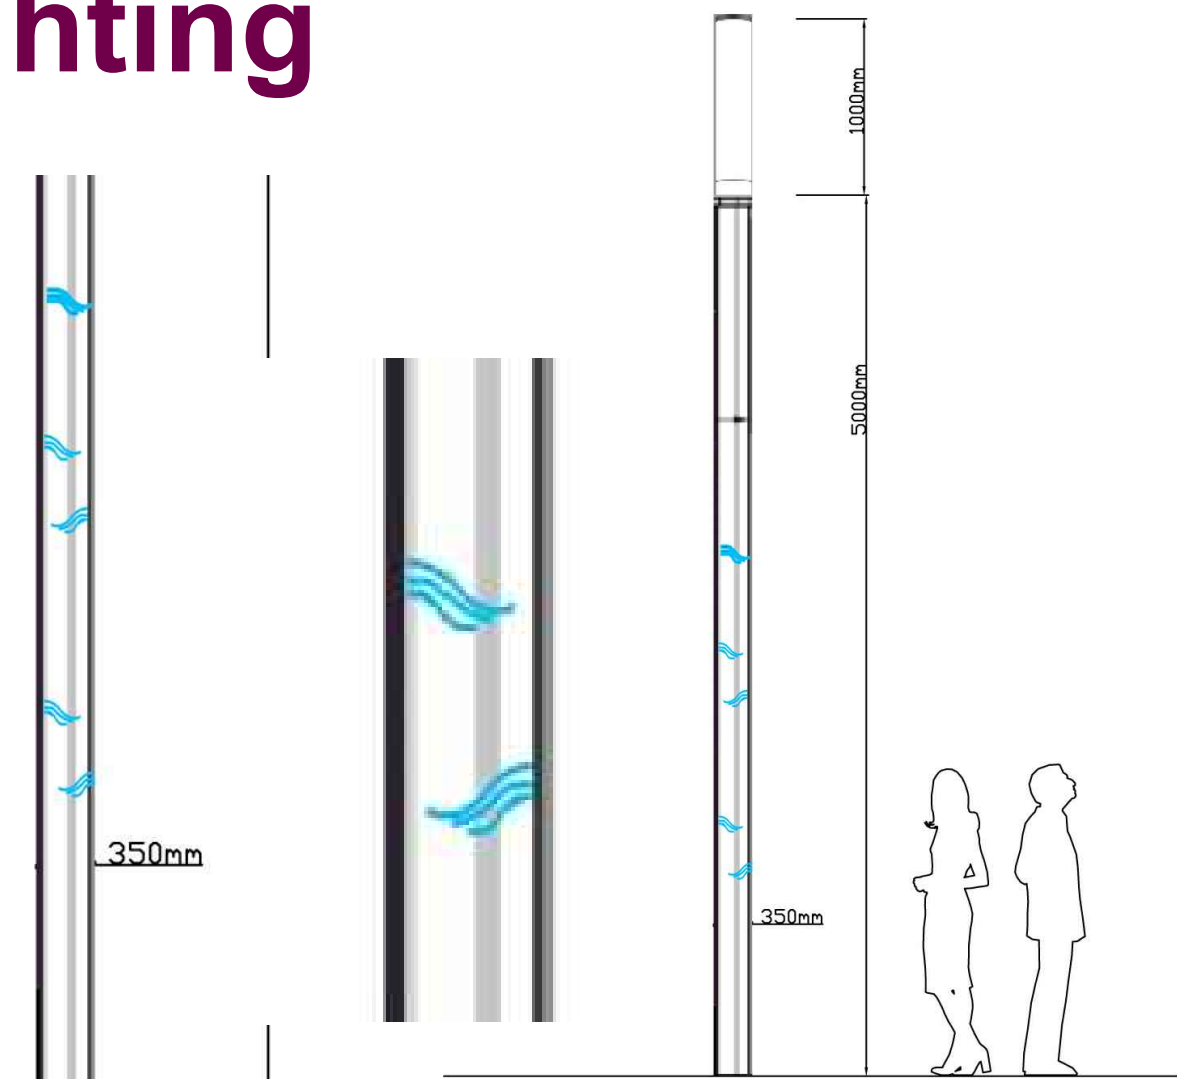

Illustrative images of integrated event infrastructure, either concealed underground (pop-up) or integrated into existing street furniture e.g. bollards.

Street Lighting

Sketch render of proposed feature double headed street lighting columns within central reservation. Lighting columns to facilitate connections for festive street lighting.

Feature Lighting

Illustrative imagery of proposed Gateway feature lighting at key locations within the public realm - e.g. car park entrances, linkages and new plaza spaces.

Detailing to reflect concept theme - 'Trailing Tail', based on flowing tail movement of horse
